

# Tire Pressure Indicator Valve Caps

**Now available  
in 90, 100  
and 110 psi**

**Tire pressure indicator caps provide a clear visual indication of the tire pressure condition.**

- Save time during tire maintenance procedures
- Increase safety and tire life with proper tire inflation
- High quality brass body construction
- Lightweight design for less stress on the valve or extension
- Installs like a standard sealing valve cap
- U.S. patented product

**Designed for truck tire service**

**#27195  
90 PSI**

**#27194  
100 PSI**

**#27185  
110 PSI**

*Yellow indicator when the tire pressure is low*

*Black denotes that the pressure is within a safe range*
