

MYERS VT46 TPMS Diagnostic Tool

- An updateable diagnostic TPMS tool manufactured by TPMS market leader, ATEQ
- Activates and reads 100% of OE and aftermarket TPMS sensors in seconds
- Upgradeable to include OBD relearn coverage for Asian vehicles with optional OBDII module connector
- Programs most aftermarket TPMS sensors in seconds including: Myers Upro, Schrader EZ-Sensor, Alligator Sens.it, and Huf Intellisens.
- Frequent online updates ensures most up-to-date vehicle and sensor coverage
- Displays all available TPMS sensor data including: ID, tire pressure, frequency, tire temperature and battery status
- Programs dead sensors via manual input
- Provides step-by-step manual, OBD, auto-relearn and indirect relearn procedures
- **5 years of FREE updates, 2 year tool warranty**

Programs all sensor brands distributed by Myers Tire Supply!

and more...

#MTS46

Optional OBDII cable and module

- Uses the same OBDII cable and module as the ATEQ VT55
