Automotive Dealer
Certified Service

Pilot Wire Patch Plug

- Seamless dual cure gum plug stem design allows for easy insertion into puncture injuries.
- Dual Cure Gum – Properties allow for up to 2x the adhesion than chemical cure-only patches

Fast Dry Self Vulcanizing Cement

- Industry leading dry times saves service technician valuable time
- Eliminates the most common cause of failed tire repairs — lack of proper drying time.

Repair Sealer

- Used to restore the air impermeability of an overbuffed or damaged innerliner

Cleaner Fluid

- A petroleum free cleaner that dissolves lubricants and contaminants prior to buffing.
- Cleaning action maximizes adhesion
